

Friday 29th May 2020

Dear Children,

We have really missed you and everyone at Mordiford CE Primary is really looking forward to welcoming you back to school. We have all experienced a very unusual time and things are still not as quite as we remember them. It will be different on your return to school and we will need to look after each other carefully. We must make sure that we keep ourselves and others as safe as possible. We can do this by;

- Keeping space between us, try putting your arms out to the side like the wings of a pretend aeroplane as this will give you an idea about what a good distance is
- Making sure our hands are super clean by washing them with soap and water for at least 20 seconds or using the hand sanitiser. We need to do this when we come into school, if we sneeze, before and after we eat, after using the toilet and when we come in from outside
- Making sure that we don't touch our face
- When we sneeze catch it and bin it, then wash our hands

Most importantly of all we need to be kind to each other.

Please make sure that an adult at home or school is aware of how you are feeling and understands any worries that you might have. Try to be honest and share your feelings and emotions. I know that your parents will talk to you about these things too.

See you all very soon.

Best wishes,

Miss Finney
