

Mordiford CE Primary School Feasibility Study Questionnaire Stage I -The Masterplan

As part of the School's Improvement Plan we are committed to improving the School Environment

As part of this process the School is currently carrying out a Feasibility Study looking into the current and future needs of the School and its surrounding community.

This will in turn lead to a bid for funding to enable us to realise these plans.

The first stage of this is to develop a masterplan strategy for the next 10 years which reflects the needs and desires of the School, its pupils, parents, governors and staff .

To this end a number of options are being explored as to how best this could be achieved. We would be grateful for your feedback as to how well you feel the options displayed address the needs identified.

Please place the options in preference order: i.e. If you think Option 2 offers the best teaching spaces please put a 2 in column 1

Preference	1	2	3	4	5
access and parking					
entrance and security					
teaching spaces	2				
support spaces					
external environment					
best overall
